

July 2026

Crambe maritima, Sea Kale, Walberswick Dunes June 2026

June is such a vibrant month of activity across all WCLC habitats!

Suffolk Wildlife Trust have had a project for June 2026 called 30 Days Wild; its an opportunity to focus on Nature when there is so much going on!

One project they advocate is litter picking and WCLC would like to give a big shout out for all those who pick up litter on their walks - just giving Nature a better chance. Thank you.

If you want to do a wildlife themed activity with some younger people this could be the link for you...<https://www.suffolkwildlifetrust.org/actions>

Meanwhile look out for birds fledging, including Lapwing and Red Shank on the wet grasslands, Swallowtail Butterflies & Dragonflies darting around reedbeds and wetlands, and Nightjars & Glow-worms - best spotted in the evening on the heath.
